

ENVIRONMENTAL POLICY

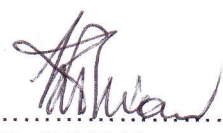

DIXON BATTERIES, a manufacturer, stock holder, distributor and recycler of lead acid automotive, motor cycle and golf-car batteries acknowledges that its activities, products and services may have adverse effects on the environment. As a responsible company, **DIXON BATTERIES** believe that sound environmental management systems will enable us to meet the needs of our customers and other interested parties in a sustainable way. To this end the organisation has implemented the ISO 14001 Environmental Management System.

DIXON BATTERIES is therefore committed to the following, subject to the limitations imposed by technological options, business and financial constraints and the views of interested parties:

- Regularly indentifying our environmental aspects and impacts for existing products, services and activities and new developments.
- Regularly reviewing our policy and environmental management system for continued suitability.
- Setting and regularly reviewing environmental objectives and targets.
- Comply with applicable legal requirements and other requirements to which our organisation subscribes to in the markets we operate.
- Communicating this policy to all persons working for or on behalf of the organisation and making it available to the public at appropriate places on our premise, website and upon request, to other interested parties.
- Provision of adequate resources for the implementation and maintenance of the management system and prevention of pollution,
